

Tierra's STORY

U.S. SNAPSHOT

- 45%** of U.S. pregnancies are 'unwanted' or 'mistimed'
- 59%** of women who had abortions in 2014 had at least one prior birth
- 75%** of women having abortions believed that having a baby would interfere with work, school, or the ability to care for other dependents (a top 3 reason cited for their abortion choice)

When I found out that I was pregnant, I was 25-years-old and already had a 4-year-old son. I felt scared, nervous, and unsure of what to do. I felt to be 25-years-old at the time, I had much more to accomplish and I wasn't ready to be a mom for the second time.

I came to Care Net Peninsula because I was given their business card during a previous pregnancy at a local clinic. They treated me so well and welcomed me that it was only right that I returned with this pregnancy.

When I came to Care Net Peninsula I never felt judged for my choices I made in my life. I was always treated like I was important and they showed respect.

Since coming, I have built more confidence, I am happy to be a proud mom of my son and now baby girl thanks to Care Net Peninsula. I learned to own my decisions and make the best of it.

Because of your support of our ministry, Tierra beat the odds of having an abortion! Front and back images are actual photos of Tierra and her baby, Tahiry. Please pray for Tierra and her children as she grows in confidence and love as a mother.

Director’s Perspective

Kimberly Logsdon
Executive Director

Imagine a woman treading water on a vast sea--a child in one arm—with no rescue ship in sight. She is weary and tries to keep their noses above water. Then imagine someone throws another infant to her and says “Catch!”. What happens next? Do they all die? Does she consider sacrificing one child to give the first child a chance?

This paints a picture of how mothers like Tierra feel overwhelmed in the face of unplanned pregnancy. In the past year, nearly half (46%) of women we served had a least one prior birth before the pregnancy that brought her to our clinic! Your support offers rescuing help and a buoy of hope in Jesus, empowering women like Tierra to build support

systems out of community resources and equipping them through parenting and life skills geared toward experienced mothers.

Did you see the photo this summer of a chain of people that rescued eight swimmers in distress? You are like them, linking arms in community to save many more than that who are in deep distress.

At last count, 74 women this year (confirmed) have already changed potential abortion decisions and chosen LIFE for their babies. We need your help in these choppy waters! These families need you.

*for LIFE,
Kimberly*

Caring Community: Photos by Garnett

Volunteering can take on many different forms! Meet Garnett Hutchinson, who started Photos by Garnett as a way to help fund the work of Care Net Peninsula. A frequent traveler, she could not volunteer on a weekly basis, but wanted to actively support the ministry. So in lieu of payment for her photo sessions, she asks clients to make a donation to Care Net Peninsula! 20 people have used her since her launch in May and she told us “I just prayed that people would come...When I start to wonder if I have reached my limit, my phone rings and another family wants a session!”

Visit www.photosbyGarnett.com. You will capture the blessing of your family in photographs while helping preborn children and their parents at the same time.

Winter Baby Bottle Campaigns

Support women facing unplanned pregnancies in a tangible way while the people in your pews participate in a grass-roots way! We make it easy by supplying everything you need: colorful baby bottles, simple instructions, sample announcements and even a team to count the loose change that you collect!

Winter is our ‘leanest’ donation time and also a time of great need for pregnant women on the Peninsula. Baby Bottle Drives bridge the gap! Call us today to reserve your bottles.

Our *What to Expect When You Are Expecting* books fly off our shelves. Can you help restock us?

FALL 2017

I remember when reports announced that Princess Kate of England was pregnant. Even the most secular news outlets immediately began talking about the child in her womb as an heir to the throne...

But doesn't the dignity we conferred on a '**ROYAL**' baby apply also to countless other '**ORDINARY**' babies **WHOSE LIVES** are no less significant?
